

August 2019

## **NEWS RELEASE**

---

**Malvern Water Works** will begin its annual fire hydrant flushing on Monday, August 26<sup>th</sup> at 6:00 P.M. The operation will continue through Friday, August 30<sup>th</sup>, 2019 until all hydrants have been flushed. The purpose of flushing is to help clear sediments from water mains and to collect pressure and flow data.

You may notice some dingy or discolored water while the water works crews are flushing in your area. It should clear up within a few hours. If not, call 332-3634 between 8 A.M. and 4:30 P.M. After 4:30 P.M. call 732-0397. If no one answers, leave a message and one of our staff will contact you as soon as possible. We encourage customers to not wash light colored clothing until they verify the water is not dingy by running water in a white container to check for cloudiness.

Thank you for your patience and understanding.
